

Students electronic security policy

The school provides counseling and awareness services for students and parents to make their children safe when they use the Internet at school and home, including:

- Explaining the importance of the safe use of the Internet, and always using it to achieve a positive purpose (scientific, cultural, academic, social or recreational).
- Awareness lectures about electronic bullying and how to deal in case of electronic abuse.
- Avoid speaking to strangers through the internet about family and giving others a personal information.

* Every complaint about cyberbullying will be dealt with complete seriousness and take the appropriate procedures with it. Therefore, the school has appointed specialists and supervisors responsible to follow up on complaints and take the necessary procedures in all departments.

Communication channels:

The school provides all means of communication to submit any suggestions or complaints through the following ways of communication:
